

# LOOKING TO CUSTOMIZE YOUR DISPERSANT?

Nelson Brothers is well positioned for the custom manufacture of PIBSI dispersants to help extend oil lifetime, minimize the destructive processes in an engine, and enhance all-around lubricant performance. Our facility is designed to scale and adapt to your unique technological needs, and our technical team stands ready to place our capabilities at work for you.

## GET STARTED IN FOUR EASY STEPS

### **1** CHOOSE YOUR TYPE OF POLYISOBUTYLENE (PIB)

We offer a wide range of molecular weights

### **2** CHOOSE YOUR REACTANTS

Pick your desired amine, polyol, and boron content

### **3** CHOOSE YOUR DILUENT

Choose your oil, solvent, or ester

### **4** CHOOSE YOUR NITROGEN CONTENT

A range of 1% to 4% for your product needs
